

I acknowledge that I have obtained the appropriate consent from my patients for PracticeMojo to use the phone number we have entered in the Home Phone Field in our practice management software to make automatic calls (including autodialer calls). I further acknowledge that while sometimes the phone number in the HOME PHONE field is really a cell phone, the patient has given written or verbal consent to use this number for communication with our practice. Therefore, I give permission for PracticeMojo to make autodialer calls to the phone number in the Home Phone field, without PracticeMojo verifying that the provided phone number is a landline.

I also acknowledge that I know how to update a patient's call preferences in PracticeMojo. I acknowledge that should any patient revoke the given consent for receiving phone calls (including autodialer calls) to the provided HOME PHONE number, I will update the patient's call preferences in PracticeMojo or modify the information in my practice management software.
